**THE NEW**  
**EXTREME**  
**100% PLANT**  
**ENERGY DRINK**

*Drink positive energy!*

The extreme power that our drink contains, comes from the guayusa plant. This Ecuadorian herb consists of different ingredients that together release the energy, slowly over time. Nightwatch only contains natural sugars that can be found in fruits and flowers.

LONG LASTING ENERGY NO ADDED SUGARS 100% PLANT BASED

Together with the guayusan caffeine this makes it the best option for long lasting energy. No artificial stuff, just some pearls of mother nature to provide you with

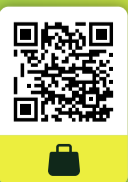

**EXTREME FOCUS & POWER!**

### THE POWER OF NATURE

Several years ago (2015), we started working with an Amazonian tribe in Ecuador called the Quechua. The Quechua communities were among the first ever to come across the guayusa plant and discover the extreme energetic properties that it contains. Together with these communities, we set up a forestry project to grow and harvest guayusa leaves without encroaching on the forest. More information about this and other sustainability projects can be found at [nightwatchdrink.com/projects](https://nightwatchdrink.com/projects).
